## What about learning German during the holidays? It's going to be fun – in the Carl Duisberg German Course for 12-15 year olds in Berlin

We are organizing a German adventure course for young adults from 12-15 in the south of Berlin - directly on the Wannsee. The course participants stay in a Youth Guest House with friendly furnished dormitories, and are looked after round the clock by our experienced staff. Our modern classrooms, a small internet café and spacious grounds with a volleyball field, private jetty and swimming area, a grill area and table-tennis, all guarantee a pleasant and varied stay.

During the mornings the youngsters will learn German in small groups through language games and communicative teaching methods. Language anxiety will be reduced and confidence in their own language abilities will be boosted. The first signs of improvements are quick to be seen; communicating with the trainers, the guardians and the other participants becomes easier day by day. This is the way to make learning fun!

In the afternoons, evenings and of course weekends, having fun has priority. Our leisure time organizers have planned a varied and entertaining program. Whether it's sport, games, or lazing around on the lawns, barbecues, discos or a trip down town, we promise a colorful, exciting and interesting time in Germany.

Our philosophy is feeling good about learning and having a holiday at the same time. Our guardians are present for all the children round the clock, our teachers are there for every individual participant, and our administrative staff professionally organize every stay right from the initial booking to the journey home, right down to the last detail - our service and personal care distinguishes the work of the Carl Duisberg Centren.
