CIAL Centro de Línguas Your Portuguese Language School

CIAL has been offering high quality Portuguese language teaching for over 30 years, combining flexibility, competence and friendliness. During this time thousands of students have expressed their satisfaction with our work.

We believe our responsibilities are not confined to the 4 walls of the classroom: the aim is to provide students with a full cultural experience.

CIAL's method places specific emphasis on language for communication.

The method can be described as structural/functional, the grammar and structures being taught and learned naturally, through practical usage.

Students are encouraged to use CIAL's audio, video and library facilities in order to practice language skills.

CIAL employs only qualified teachers, friendly yet highly professional. Refresher courses are held regularly to bring staff up-to-date in techniques and materials.

Extra Curricular Programme

A monthly programme of activities is available to the students including visits to museums, monuments, evening outings to live music concerts, bars, and Saturday half-day visits to points of interest.

These activities are included in the course fee, and are subject to a minimum number of inscriptions.

Also available are full-day Sunday excursions and typical dinners, at an extra cost, to be paid locally, also subject to a minimum number of inscriptions.

Students are accompanied by monitors who turn all these activities into pleasant experiences of Portuguese culture.

Student Services

CIAL has a Student Service that will advise and help students not only in case of problems or doubts related with the Course, the Accommodation or the Social and Extra-Curricular Programme, but also with any other aspect of their stay in Portugal.

Transfer Service

A transfer service is available for students who wish to be met at the Airport (or train/bus station) and taken to the accommodation chosen.

Accommodation Service

Private home accommodation is an important part of most students' stay. CIAL's carefully selected homes will offer you much more than just accommodation and breakfast. Living in a Portuguese home will help students gain familiarity with the language. Your host may be a family or an individual.

Students are placed in individual bedrooms and will be the only native speaker of their language in the house.

The school is reached either by foot or by public transport, never more than a 20 min. ride.

When students prefer not to stay in a home, CIAL is happy to help find suitable hotel accommodation.
