Learning Italian in Italy Our Teenager Programm

QUALITY TEACHING TO INSPIRE YOU

"I Malatesta" Teenager Courses provide a wonderful opportunity to meet young people from many different countries. The course combines a week of action packed task based learning activities with a fully supervised social and entertainment programme. This exciting combination has had many students returning to Rimini year after year until they are no longer young enough and join our adult programme!

The academic staff who teach our teenager programme are a blend of young but well qualified teachers specially selected to stimulate and encourage learners to develop the 4 skills of listening, speaking, reading and writing and to increase their awareness of Italian grammar and to extend their vocabulary.

On arrival at school on Monday morning all students will be asked to take a reliable Placement Test that will allow us to assign students to the most appropriate class based on their level and age. During the first lesson the teacher will confirm the student's fluency level.

Our teachers always take a personal interest in our students and their studies. They constantly encourage students to achieve their best and to develop excellent communicative skills.
