FAQ Regarding the Internship Program in Taronja School

1. Is there a minimum duration of the language course to do an internship?

Yes, the minimum duration is a 2 weeks language course.

2. Is there a minimum age (or a maximum age)?

The minimum age is 18 years old - We don't have a maximum age.

3. Which level of language skills is required? Is there a minimum duration of a language course for beginners, who want to do an internship in Spain?

The student must have a high-intermediate or advanced knowledge of Spanish. He/she has to be able to communicate (understand her/his superiors or colleagues and make him/ her self understood). If the student is beginner he/ she must take at least an 8 weeks "Intensive course" (if it's super intensive even better).

4. The fee is always 400 €? Is it refunded, when you - in the unlikely case - cannot find an internship for the student?

If we can't find anything the amount will be refunded (it has never happened). But the money will not be refunded if the student wants to change or to cancel the internship once it is already confirmed. To avoid a disappointment we ask for the CV and presentation-letter at least 1 month before the starting of the internship, to have time to search the right company and internship to the student, according to her/his CV and goals.

5. When does the student have to send his CV and a letter of motivation?

The CV + Letter must be sent with the enrolment form (in SPANISH please!)

6. Will you search for an internship while the student is in Valencia studying at your school? Is there an interview?

We ask at least 1 month in advance for the CV and letter to try to find an appropriate internship for the student.

But, especially with students who come for a long period and with students that must improve their Spanish first, the Internship search can take place once the student has already joined us.

Regarding the interview it's often here at school with the Head manager; she is in charge of the Internship programs and the one who will speak to the company that will take the student on Internship.
