

# INTERNSHIPS IN CHILE

We arrange interesting internships for high school graduates and college students, from 2 to 12 months in varied areas and all over Chile. In this area, we cooperate with a well established agency in Santiago which counts on a manifold net of partner companies and institutions. You can combine the internship with a [language course](#) at our school, either before or parallel to the internship.

## Internship Placements

### Among our partners are:

- Chilean and international **companies** of different size and trade
- Chilean **governmental institutions**
- Non-governmental organisations focussed on social, ecologic, ethnic or cultural issues.**

*The business quarter "Sanhattan"*

## Conditions

In most companies and institutions, a good knowledge of the Spanish language is an indispensable requisite. Therefore, before or during the internship we arrange [language courses](#) in small groups, especially designed to fulfill your individual needs.

Don't expect any salary doing an internship in Chile, unless you are highly qualified, and a company or institution is especially interested in your capacities. Bigger companies normally provide lunch and/or a transportation bonus.

The duration of the internship is up to you, but it should not be less than six weeks. We recommend three to six months.

## Application

### Your application should consist of:

- Cover note** (in English or Spanish) describing your ideas of the internship: when, where, how long, in which area, which type of company or institution, your motivation and anything else that helps us finding an appropriate placement for you.
- Your resume (CV)**, if possible in Spanish, with a current photo. Please mention especially any practical experience in your area and try to be honest about your Spanish level.
- If at hand, other internship reports and language course certificates.
- Please check our [internship list](#) and provide us with the codes of the places you are interested in.

**Please send these documents** as a Word or PDF file to:

[practica@tandemsantiago.cl](mailto:practica@tandemsantiago.cl).

We will then ask you for an application deposit of 50 USD (see Costs) and start arranging the appropriate placement for you.

### How much time ahead?

According to the area and the internship placement you apply for we need between 2 and 10 weeks in order to prepare a specific offer for you. Therefore you should try to send your application 3 to 6 months before the desired starting date so that you have sufficient time to plan your trip. Exceptionally, we may be able to arrange an internship in less time. On the other hand, if you apply very early you might have to wait longer because companies and institutions in Chile do not plan very much ahead.

# INTERNSHIPS IN CHILE

## Program costs

Once accepted the placement, we will ask you to deposit the program costs completely **in advance**, at least ten days before your arrival.

### Admission & Reservation

At the moment of applying we will ask you for an application fee of **50 USD/35 Euro**. This amount is considered part of the whole program costs and will be deducted from the balance once you accept a position and pay the program. There is no admission fee!

If we do not offer you an internship in the desired area within 10 weeks (counting from the moment we receive the application fee), we will restore the application fee to you (deducting transfer costs). If you withdraw your application within these 10 weeks or if you do not accept an internship offer, there will be no right to refund.

Once accepted the placement, we will ask you for a reservation deposit of **220 USD/150 Euro**. The balance of the complete program costs is due at least two weeks before your arrival.

The **Program costs** are charged on a weekly basis:

<b>Time of stay</b> (begun week)	<b>Weekly costs</b> (in USD)	<b>Weekly costs</b> (in Euro)	<b>Cost without housing</b> (in USD)	<b>Cost without housing</b> (in Euro)
up to 11 weeks	120	85	419	299
12-17 weeks	100	70	449	320
18-22 weeks and longer	85	60	479	340
23 weeks and longer	83	58	499	360

Already paid application and reservation fees will be deducted from the total costs.

The program costs include the following **services**:

- Arrangement of **internship place**
- Arrangement of **lodging**
- Lease** of lodging including expenses (except telephone, internet or board). Lodging can be with families, other students, or Chilean professionals, in single rooms with private or shared bath, use of kitchen and common spaces. We try to respect your preferences. If you have special wishes about the situation and equipment of the place leading to higher rents, we might have to discuss an extra charge. The same applies to the option of furnished apartments.
- Preliminary **information** about Chile, the internship place and the internship itself
- Informative talk** upon arrival in Santiago
- Contact Chile **accompanies** applicant to interview at company/institution (only in Greater Santiago)
- Mediation** in case of difficulties or problems; if necessary, we look for an alternative placement
- Regular **informal meetings** with other internship participants and Contact Chile staff members (only in Santiago).

**Food** is not included but can be booked optionally. Some families or boarding houses offer breakfast and/or lunch and/or dinner.

A private **pickup service** at the airport, with an English speaking representative taking you by car to your lodging place, can be arranged
